INVITATION TO SUBMIT PAPERS

Readers are invited to submit research papers for publication in the peer-review journal,

Telecommunications Policy

The journal is concerned with the roles of information and communication technologies (ICT) in the economy and society.

Telecommunications Policy is multidisciplinary and international, encompassing issues of both theory and practice. Founded in 1976, the journal has a high impact factor and is widely cited. In 2012, researchers and practitioners downloaded over 197,000 full-text *Telecommunications Policy* articles, providing our authors with unparalleled visibility and reach around the globe. In the past two years, considerable efforts have been made to increase speed to publication while maintaining scientific rigour.

Submissions are welcomed via the dedicated online platform:

TELECOMMUNICATIONS POLICY

**The International Journal of ICT Economy,
Governance and Society**

Telecommunications Policy is concerned with the roles of information and communication technologies (ICT) in the economy and society. The journal is multidisciplinary and international, encompassing conceptual, theoretical and empirical studies, quantitative as well as qualitative. Its scope includes ICT markets; policy, regulation, and governance; management, entrepreneurship, innovation and use. Contributions may explore these topics at national, regional and international levels, including issues confronting both developed and developing countries.
